INDEPENDENCE, N.M., July 16.—Female use of a pocket mirror proved the undoing of "Glen Rose," who for several weeks masqueraded successfully as a harvest hand. Glen then admitted she was a girl.

In police court, where she was fined \$5 and her male companion \$25, she stated that she had been teaching school in Oklahoma and was 19 years old. The prospect of making her money in the harvest fields, she asserted, prompted her to start in the "masquerade." She had shorn her locks and was attired in a faro along with men harvest hands.

"I noticed she wasn't able to do any very heavy work and had rather dainty features for a boy," said her employer after the disguise had been made, "but never suspected that I had a lady harvest hand."

Glen's male companion paid his own fine and left her to "wait out" her time in jail.

**IS THERE NO HEREAFTER FOR SUCH SLACKERS?**

LONDON, England, July 16.—The hangmen of Germany have gone on strike for increased wages, says a Berlin dispatch to the Exchange Telegraph, quoting German newspaper. At Meiningen, according to a dispatch, the execution of a murderer could not be carried out, as Haff and Munich hangmen refused to work.

Daily Courier, The per month.

Consolidation of the many departments in the United States Army, pertaining to the various operating offices and their respective personnel, and presumably making for greater efficiency, a condition that has been the hope of everyone interested in the commanding officer of the army, has at last taken place.

Under general orders No. 45 of the War Department, dated Washington, D. C., July 15, 1930, it is stated a consolidation of the construction branch, utilities branch, motor transport corps, real estate service, and supply division is effective from this date, and the consolidation will hereafter be known as the Quartermaster Corps.

All officers, soldiers and civilians now serving in these branches will come under the consolidation.

Telegraphic instructions from San Antonio yesterday to Columbus placed Major James F. MacDonald, Q. M. C., in charge of the newly created consolidation, and under the same orders Captain W. J. Howland, Q. M. C., who was ordered to Washington a few days ago, will remain in Columbus as an assistant, and Second Lieutenant Leslie Gustaf, Q. M. C., likewise is named assistant.

**Wheat Drops 10 Cents A Bushel in Chicago**

[By Associated Press.]

CHICAGO, Ill., July 16.—Wheat underwent a sensational break in prices here today. The market opened from unchanged to 10 cents lower. Later it declined to 10 cents lower. The decline is attributed more to the lack of buying orders than any great pressure to sell. As low a price as \$2.20 a bushel was reached for December delivery against \$2.30 at the close of yesterday's trading.

It was estimated that by midday over a million bushels of wheat had changed hands.

MEXICO CITY, July 16.—General Pablo Gonzalez, former candidate for the presidency of Mexico, and his wife, Generala Alicia, were captured near Monterrey yesterday morning, according to an announcement made by the war department yesterday evening. There is an unconfirmed report here that General Gonzalez has been summarily court-martialed at Monterrey on charges of rebellion. It is stated that the war department considers General Gonzalez as the intellectual head of the recent revolt of Generals Carlos Ochoa, Josue Guadalupe, Ricardo Gonzalez and Irineo Villarreal.

Ricardo Gonzalez, who is reported to have attacked Nuevo Laredo, is said to have met with repulse and fled. Women helped to defend the city, it is said.

General Guillermo Moctezuma, the revolutionary leader in the state of Oaxaca, is in Mexico City arranging for the transfer of his troops to the new government. He is to retain his command under the orders of the war office, the Herald says.

**Monterrey Withstands Five Hours Assault; Country Safe**

BROWNSVILLE, Texas, July 16.—Raiders under General Villarreal, who attacked Monterrey, capital of the state of Nuevo Leon, Wednesday morning, fought for five hours before they were repulsed, according to details received here. The attack, it is said, numbered 300 men. The first fighting occurred at the Gulf railway station, where virtually a whole trainload of federal soldiers with their women and children were caught asleep and killed.

The rebels then attacked the federal barracks and the penitentiary, but were repulsed. Monterrey has been comparatively quiet since the attack, according to this information.

General Pablo Gonzalez, former federal commander, disappeared from his home in Monterrey after the fight, the report said. It was supposed that some of Gonzalez's former commanders participated in the attack.

Two hundred and fifty cavalry men left Matamoros, opposite here, this morning for Monterrey.

And for information he will give a suitable reward.

**Found; Seltzellar of Morphine.**

Last evening a soldier found a seltzellar half full of what apparently was salt. He took it home but found that the contents were far from salt. He turned the seltzellar over to the base hospital and upon being tested it was found that there was a half ounce of perfectly good morphine. Major Hansen says the owner has a chance to get it back by calling and identifying it. As the morphine is worth about \$50, some one is in hard luck.

Kid Room couldn't resist the allurements of the 24th Infantry and so he re-enlisted. After his discharge from the Army some time ago he returned to St. Louis, but time dragged heavily on his hands and when he heard Floyd Heise had won a decision over Backhouse it was too much for him and he at once got on board a Pullman for Columbus. LOS ANGELES, Cal., July 16.—A severe earthquake at 10:10 o'clock this morning apparently centered in the city of Los Angeles, caused some slight damage to some of the older buildings, dislodging masonry and breaking plate glass windows, and frightening citizens generally. No extensive damage reported.

[By Associated Press.]

LOS ANGELES, Cal., July 16.—A sharp earthquake shock was felt here at 10:10 o'clock this morning. The shock was more severe than any of the series felt here recently except the one occurring June 21 when heavy damage was done in Inglewood and in the southwestern section of the city of Los Angeles.

A quick survey made immediately after the quake showed no damage, but the investigation was hampered by the apparent demoralization of telephonic communication caused by the telephone operators becoming frightened and deserting their switchboards.

**Russia Empress and Children Burned Alive**

[By Associated Press.]

PARIS, France, July 16.—The Russian Empress and her children were burned alive after the execution of Emperor Nicholas at Ekaterinburg. It is alleged in statements attributed to Alexis Istrouche, former courier to the Empress, which were published here today.

Dolgovitch said he made vain attempts to save his mistress and the children. They were taken to a woods, brush wood was gathered and a huge fire started into which the royal victims were forced.

Every time they sought to get out of the fire, Dolgovitch said, they were driven back at the point of bayonets. Tatiana, one of the victims, fled the fire three times, and eventually was pierced with a bayonet.

**Galveston City Officials Suspended From Office**

AUSTIN, Texas, July 16.—Suspension of city officials of Galveston, Texas, was ordered in a proclamation issued yesterday by Governor Holley. The judge of the city court, the chief of police, the chief of detectives and all members of the presidency of martial law in Galveston. The mayor, city attorney and the four city commissioners are suspended and restrained from performing any duty pertaining to their respective offices with reference to the enforcement of the penal laws of the state of Texas and of the city of Galveston.

Brigadier General Jacob F. Weller, commanding the military district of Galveston, is directed to enforce the order and "cause to be faithfully executed the civil law in the territory affected by martial law, subject to the order of the governor of Texas."

Yesterday afternoon a soldier named Moberly stepped off the 6 o'clock train and immediately awoke off in a direction leading to the home of a brother-in-law, it is said, also a soldier, and arriving at the front door he was greeted with a command to "beat it" by his brother-in-law.

However that may be, he evidently did "beat it," as his back bears evidence. Some one took a shot at him and it was shot, all right, because the staff at the base hospital were busy for an hour tweezing out at least 150 pellets which are supposed to be used on birds and jackrabbits.

When seen at the hospital this morning Moberly was resting easily but not on his back, however, and Major Hansen said he would be out in a week.

His assistant, although the reporter was unable to obtain his name, was locked up in the guard house.

It is said Moberly had threatened to do a little "concocting" in his brother-in-law's home when he returned, and the brother-in-law fortified himself with a shotgun and a supply of birdshot.

**WHAT DOES HE MEAN?**

Editor Daily Courier:

Dear Ed—Now that the P. S. (not postscript) are going at top speed, and as they gave the village of Columbus a very good entertainment, which I am sure all the town folks enjoyed, I have something on my chest, that I think is too good to keep to myself, especially as it pertains to dancing, so here goes. Several days ago I received an invitation to the home of a popular couple of this village, for reasons unknown to me, but I was soon to find out. In addition to myself there were also present friend wife and several other young Columbusites. After arriving at the prearranged destination, I found that we had associated for the purpose of giving instructions to a young man, whom I will call Jim (the sport), in tripping the light fantastic. When the Victoria was let loose and sleep under one was in disregard to the tune of "Don't do that, do it like this, leave your arms hanging loosely, bend your knees, don't walk as though your limbs were made of wood. Now, watch up." By this time the Victoria had to be re-wound and a new record placed on same. At the second attempt the best demonstration in the many art of juggling that the writer has ever seen was displayed. Now he predominated with a hammerlock, then he shook his partner with a strangegrip, and just as I was about to break a half-nelson, they both took the milk in a heap. Of course, as referee of this bout I gave the first referee of this bout I gave the first referee a bit part. This slight incapacitation halted the proceedings for the day and it was pronounced a boxing success by all except myself. I remained mute, as there had been but one fall, and until they meet once more I will not render a decision. When this does take place I will if possible have the result put into your worthy columns. Respectfully yours,

INCOGNITO.
